MANITOBA POPULATION ESTIMATES - October 1, 2006

	<u>October 06</u>	<u>July 06</u>	<u>October 05</u>
<u>POPULATION</u>	1,178,491	up 726	up 3,896
<u>NET MIGRATION</u>	(January to September)	<u>2006</u>	<u>2005</u>
	Interprovincial	-6,771	-7,873
	Total	782	-1,867

Manitoba's total population was estimated at 1,178,491 persons as of October 1, 2006, up 726 persons from the July 1, 2006 estimate. Population growth continues on an annual basis, with Manitoba's increase since October 1, 2005 estimated at 3,896 persons, or 0.33%. A large portion of Manitoba's estimated population gain of 3,896 persons over the past 12 months was the result of immigration (9,419 persons). The immigration flow of 9,419 from October 1, 2005 to September 30, 2006 is the best since at least the October 1, 1971 to September 30, 1972 period.

We recorded an estimated net loss of 6,771 persons from other provinces through interprovincial migration in the first nine months of 2006, an improvement of 1,102 persons from the net loss of 7,873 persons in the first nine months of 2005.

Interprovincial migration is generally offset to some degree by other types of population movement (international migration, Canadian citizens returning from abroad, non-permanent residents and Canadians temporarily abroad). When these other forms of population movement were combined with interprovincial migration, Manitoba recorded an overall net migration gain of 782 persons in the first three quarters of 2006. This net gain of 782 persons marked an improvement of 2,649 persons from the first three quarters of 2005 net migration loss of 1,867 persons.

Net international migration for the first three quarters of 2006 was 6,742 persons, up from 5,427 persons in the first three quarters of 2005. This improvement is due to the increase in immigration that went from 6,516 persons in the first nine months of 2005 to 7,839 persons in the first nine months of 2006.
